

INTERNATIONAL FREIGHT CONSOLIDATION

Enabling component sourcing from around the world with a proven and effective consolidation solution

Components are sourced from different suppliers in multiple locations. Product quality and availability are important, but so too is supply chain control. Along with lean inventory to minimize capital exposure, companies must optimize logistics costs.

TYPICAL BUSINESS CHALLENGES

- Managing multiple suppliers
- Administering purchase orders
- Driving standardization, accuracy, and compliance
- Ensuring in-transit and inventory visibility
- Achieving logistics cost efficiency

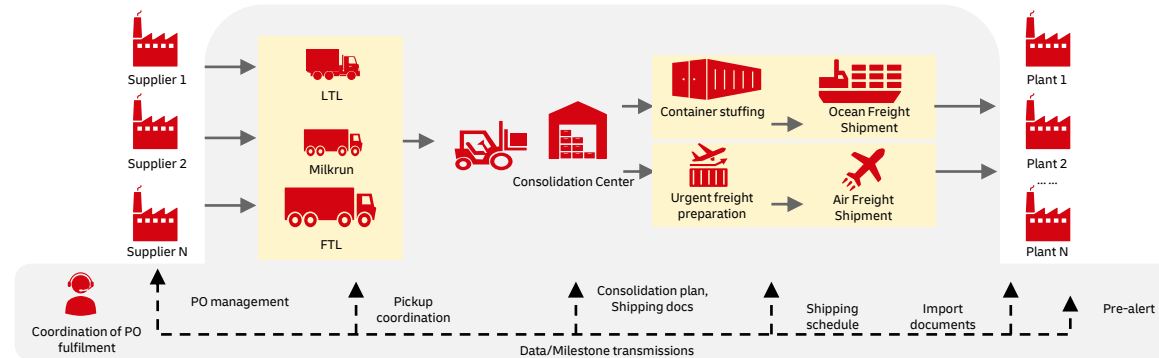

DHL SOLUTION

For auto-mobility organizations procuring components from around the globe, we offer a multi-country, multi-supplier solution to overcome sourcing complexities and to drive cost management through effective component consolidation at origin, prior to shipping.

SOLVING YOUR BUSINESS CHALLENGES

- ✓ **Managing multiple suppliers** – A single point of contact to coordinate multiple suppliers and onboard new ones by establishing standard operating procedures and incoterms
- ✓ **Administering purchase orders** – Centralized control of all supplier POs
- ✓ **Driving standardization, accuracy, and compliance** – Control of customs documentation, packaging dimensions, change management, and more through process co-design, KPI measurement, and performance reporting
- ✓ **Ensuring in-transit and inventory visibility** – Better order planning and lean supply chain execution with shipment or part-level visibility
- ✓ **Achieving logistics cost efficiency** – At pick-up and for international shipment, minimizing the cost of sourcing complexity, dynamic volume changes, and packaging variation

SIMPLIFYING THE COMPLEX: CONSOLIDATING FREIGHT FROM MULTIPLE SUPPLIERS FOR INTERNATIONAL SHIPMENT

INTERNATIONAL FREIGHT CONSOLIDATION

KEY BENEFITS FOR YOUR BUSINESS

GLOBAL SUPPLY

Suppliers managed with a single point of contact

SCALABLE

Supporting your growth into new incoterms: EXW / FCA/FOB

PICK-UP OPTIONS

Optimize costs with various options for collection transportation

BEST-FIT CONTAINERIZATION

Select the right container to maximize utilization and cut costs
