For full transparency over their carbon footprint with us, we enhanced existing carbon reporting services with the new state-of-the art GoGreen Dashboard

CUSTOMER CARBON REPORTING CAPABILITIES

New reporting tool: DHL GoGreen Dashboard

Key Capabilities:

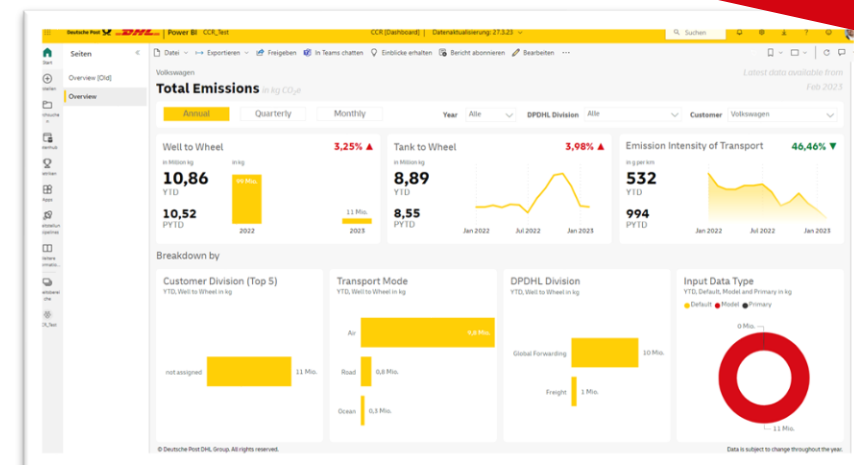

- **Automated** and **interactive** carbon reports for customers in **dashboard view**
- One-stop and efficient **consolidation** of **all DHL Group divisions'** carbon reports
- Compliant to **ISO 14083** standard and **GLEC framework**

Key Features:

- **Multiple types of views/charts** to display key carbon emissions metrics
- **Customizable dashboard/report** via filters and slicers
- **Monthly automated update** of report
- Ability to **export** and **download** the report in multiple formats and data tables

Automated monthly data update

As a starting point we provide transparency and are launching an updated Carbon Reporting Dashboard

NEW POWER BI CROSS-DIVISIONAL CARBON DASHBOARD
