DHL Group dual approach to rethinking packaging: Improve single-use packaging and shift to circular solutions

DUAL APPROACH TO GREEN PACKAGING

Circularity solutions

The **Smart Circle** is a circular Supply chain solution that extends the value of your products and reduces their environmental impact by employing a system of return, receipt, recovery and reuse

Environment

SERVICELOGISTICS

Return

End customers access a self-service portal to arrange a product return

Receive

Returned products are inspected and validated at the warehouse

Recover

Returned products are handled by our technical services teams for repair, re-manufacture, recycling or scrapping

Reuse

Product to reutilize is routed to warehouse inventory for reuse within the network or resold via marketplace
